Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are expected across the UK, with many parts seeing outbreaks of rain clearing east through the morning and limiting the build-up of pollutants.

Tomorrow: Air pollution is forecast to persist at Low levels across the UK on Monday.

Outlook: Changeable and often breezy with spells of warm, humid weather interspersed with outbreaks of rain. Fresher conditions also spreading south Thursday. These conditions will ensure air pollution levels remain Low.
